T-Torker Kit for No-Hub Coupling Installation

- Wrenches and sockets combinable to fit standard, medium and heavy duty no-hub couplings
- Color code on torque handles
 - Red = 60 inch-pounds
 - Blue = 80 inch-pounds
- Fast, easy one handed tightening in the right-hand direction
- T-shaped handle creates effective leverage
- Torque values accurate to $\pm 10\%$
- Guaranteed against defects in material and workmanship for one year

T-Torker torque wrench kit gives plumbers and utility workers greater flexibility in working with US-style No-HUB couplings.

Optional carrying case with shoulder strap and belt loops
