Porter Ferguson Pruners

For professional pruning results on: Vines, Shade Trees, Ornamentals, Root Cutting, Brush Cutting, Fruit and Nut Trees, Shrubs and Hedges and Christmas Trees

0290P

0290P Point Cut Pruner for tough pruning - cuts to 1-1/4" or quick disposal of sucker growth. Point Cut Pruners open wide for capacity cuts or small suckers and sprouts can be nipped off quickly at the point of the blade with minimum handle spread.

- Length = 24", Green wood capacity = 1-1/4", Weight = 3 lbs.

- Porter-Ferguson blades are made of tough alloy tool steel, heat-treated for exceptionally long cutting life. Because both blades cut, Porter-Ferguson Pruners and Brush Cutters make light work of the heaviest pruning. Two cutting blades also insure against damage to bark and cambium and promote quick, clean healing from both sides of branch.
- Pruner and Brush Cutter handles are heat-treated spring steel with comfortable rubber grips.

0290F

0290F Forester Heavy Duty Brush Cutter for heavy pruning, brush and root cutting, nursery trimming, highway, utility and farm maintenance and clearing. Forester brush cutters are also used for dehorning, tipping cattle and cutting PVC pipe. The P-F slide power shift makes 1-1/2" cuts with ease.

- Length = 27", Green wood capacity = 1-1/2", Weight = 5 lbs.

- With normal use, these professional pruners will last for a lifetime of efficient, trouble-free service.

0799QP

Type QP Pole Pruner Cutterhead (short arm) is designed for confined areas and for cutting thick growth in shade, ornamental and orchard trees. Pictured without rope and rope guide.

- Green wood capacity = 1", Weight = 2 lbs.

- Porter-Ferguson Pole Pruner Cutterheads are sold with or without rope and rope guide.

- To include rope and rope guide ask for Models 0798QP or 0798RP !

Type RP Pole Pruner Cutterhead (long arm) gives this pruner added leverage for open growth cutting. Pictured without rope and rope guide.

- Green wood capacity = 1", Weight = 2 lbs.
